MRS. OWEN TALKS TO LARGE AUDIENCE

Congressman Ruth Bryan Owen spoke Monday evening to a large audience at the Pahokee school auditorium, reviewing and explaining her work in congress for her district. The delivery of the address was preceded by a dinner at the American Legion hall.

At the auditorium Mrs. Owen was introduced by C. M. Todd. The platform was flanked with palm ferns and tropical flowers arranged by H. L. Soper.

A special musical number, "The Song of Love," was given by Mrs. Evin A. Bass, accompanied by Mrs. J. P. Rodgers.

Mrs. Owen's excellent address was the theme she has discussed in a radio broadcast and during her visits to the east coast—opportunities for public works in the district and tribute to the idealism of youth.

With Mrs. Owen on the platform were Prof. H. L. Soper, master of ceremonies; Mr. and Mrs. C. M. Todd, County Commissioners; and Mrs. W. G. Smith, Rev. and Mrs. J. P. Rodgers, Mr. and Mrs. Evin A. Bass, Mrs. H. L. Soper, Miss Carolyn Mock, honor student from Palm Beach county, who was the guest of Mrs. Owen in Washington last spring.

Mrs. Owen was the guest of Dr. and Mrs. W. H. Lutz.

ABOUT PEOPLE

J. D. Lee and family have resumed residence on Torry Island, after having made a long stay on the lower east coast where they went after the 1928 hurricane. He is getting his land ready for a winter trip.

Mr. and Mrs. Gus Cromatie are back at their home place on Torry Island. They had stayed at the Homestead since the 1928 storm. Mr. Cromatie came up a few weeks ago and brought some household goods and supplies and Mrs. Cromatie came up last week.

Thomas Green, who has been in and out of Pahokee off and on for several years, has leased a building at Palmdale formerly occupied by F. W. Smith and has put in a stock of general merchandise. Mr. Green is accompanied by his daughter and his mother and father and two brothers.

Bill King, well known throughout the lake region for many years, was under arrest last week at Moore Haven on a charge of possessing intoxicating liquor. O. C. Benbow, charged with fighting, forfeited a bond for \$15. Tom McBride stood trial for fighting and was fined \$10 and costs.

Miss Velva Parker, who announced several weeks ago that she would operate a commercial stenography business in a building on the north side of the lake, returned Friday the making of other arrangements she has a desk at F. E. Tiffin's real estate office in the Kallenheimer building in Pahokee. She will later bring in her office fixtures and is already preparing to write letters and do other typing for all who may desire her services.

Having observed solemn ceremonies of their religion, the proprietors of the Pahokee Clothing Company and the Kallenheimer store were open Tuesday morning, Tuesday, Monday.

J. W. Parker of Fort Meade, brother-in-law of C. E. Wilcox, is visiting in Pahokee this week. Mrs. S. Parker of Bowling Green, Mrs. Wilcox's mother, also is a guest here.

Mr. and Mrs. W. E. Lord of Shawano, George Tindoff of Belle Glade and C. M. Larrick of Lake Harbor were some of the out of town people who were notified and being in Pahokee Monday night to attend Mrs. Owen's meeting.

Congressman Owen's trip was various colors, an envelope came this week to Ralph Stallons bearing a letter from M. A. Adams, now in Havana, Cuba, a construction man with whom Mr. Stallons worked for Bryan & Holloway. Mr. Adams is erecting an American steel bridge for Monks-Tule Company and on the completion of the job in Havana he expects to be sent to Egypt. His wife lives at Lincoln, Minn., and looks after the farm.

F. E. Tiffin went up to Upland Beach the first of the week and got a advance of the rest of the week being his wife made guava jelly.

Miss Smith, a Pahokee girl now in the sixth grade, is to be awarded a blue ribbon by Miss Elizabeth Howell, county school nurse, for fidelity in keeping a health chart and for perfection in health.

The Kilgore Seed Company store on the lake road now, is being repaired and is being colored.

M. C. Garrett of Pahokee had out Saturday morning the two buses which he has on his contract to transport pupils. Each bus will carry fifty children, he said. L. Houston will drive the bus on the lake road and the other will start the trip at the H. D. Meade's place. E. R. Mackey is to drive the bus on the route from the County Line to South Bay.

A crew operating a coral drill for Contractor C. C. Nutting, was working Wednesday on the ridge south of Kilgore Seed Company store. Earth formations are being tested all around the lake to get data for the army engineers' plans for flood control work. Tests were made between Okeechobee and Nubbin slough some time ago, and the crew will work north from Pahokee to St. Lucie canal. Three lines have been run on which the crew will work north from the ridge and one back of the ridge. The tests are made every 300 feet.

J. B. Crosby, J. E. Leonard and J. H. Cason were called to jury service in West Palm Beach Tuesday.

Mrs. Ruth Bryan Owen was the guest of Dr. and Mrs. W. H. Lutz during her visit in Pahokee, where she delivered an address Monday evening.

HANSEN SEES HOW DENMARK CHANGED

Visiting Denmark, the land of his birth, Anton Hansen of Pahokee, dairyman and pioneer resident on East Beach, had opportunity to compare changes in the Old World and the New over the period of 40 years since he left the old country.

To the reporter who called Wednesday at his home on Bacon Point road he showed a series of photographs that represented the home life and the farm practices in the portion of Denmark known as Jutland—the richer portions of the country—thatched with straw and the additional roofed with beautiful native tile, cream-colored brick and the sides he knew in his youth, modern farm houses of brick and the barns and granaries of the same construction, wide roads with asphalt surface, potatoes in bloom which in the picture looked like a flower garden, and timber supply conserved by the growth of trees on home places.

Mr. Hansen made the trip going and coming on the Scandinavian-American liner Frederick VIII, New York and Copenhagen to visit his brother and his original family of six. Another brother lives in Wisconsin.

His native town is Viborg, Jutland, which he revisited, and he visited also the town some distance away there by his first work in a creamery. During his first work in a creamery he was a tourist for a time and visited every part of the country.

There is no unemployment problem in Denmark, Mr. Hansen says, that having been dealt with years ago when a system of old age insurance was made effective. Because of the depression in England the price of butter is low but there is no acute financial situation. The large estates years ago were taken over by the state and subdivided and sold in small tracts on long terms, and the tendency is to eliminate employment of farm labor by the farm family doing the work on the farms of steadily diminishing size.

The photographs showed auto-motors parked at farm houses and Mr. Hansen said most of the cars are Ford's, the price of which is about 50 per cent more than in the United States. Gasoline is heavily taxed and costs 24 cents a gallon.

Passengers on the steamer were far gayer on the going trip than on the return trip—the latter carried liquor, which contributed to the gaudy, but on the return trip the passengers had less money and their thoughts were of picking up their businesses instead of being on the pleasures of a vacation.

Denmark is not a prohibition country but the law on hard liquor is so high that drinking is generally limited to wines and beers. There are places where liquor is sold by the drink but most of the

consumption of liquor is with meals.

Mr. Hansen visited her daughter, Mrs. Jesse Trimble, in Tallahassee while her husband was in Europe. She and Mrs. Trimble met at Jacksonville and they went back to Tallahassee for a short stay before Mr. and Mrs. Hansen returned to their home in Pahokee.

To the reporter, Mrs. Hansen exhibited a collection of beater, a plant fern character with colored flower that Mr. Hansen had brought.

SHOULD REPLACE NATIVE BEAUTY
By Velva Parker.

Since the dawn of civilization man has conquered new lands for various reasons. History says that hunting and fishing grew scarce and the earlier man set out for adjoining territory searching for food. Pasture for newly domesticated flocks next caused a move in search of new lands.

From the search for necessities men turned to the search for comfort, then conquest, and finally to the search for power. Man has always been so thorough in his steady advance that only a few miles of the earth's surface can be called unknown.

East Beach, from Canal Point to Bacon Point, was once a wilderness of semi-tropical wilderness. Some settlers dreamed, an adventurer ventured, an explorer explored, and a settler settled in a land richer by far than any other land in this great world. Man has always come to great, new lands for a purpose, and their purpose on East Beach was to make a home. They have reaped wealth from a one-time swamp; suffered setbacks; made great comebacks, but where is the beauty? The beauty that sooner or later follows an explorer's quest.

Do not let the settlers of this new country realize what God has done basely for the beauty of their chosen home.

East Beach, though one time only a wilderness, was made beautiful after a fashion of its creator. What right has man to tear this wild beauty asunder, and not even attempt to replace it with a beauty, which, though not as divine as the original, will cause pride to beat in the hearts of those who have achieved it?

Our municipal organizations have made numerous attempts to beautify our road-beds and lend assistance to the people in beautifying their homes. We can not depend upon our municipal organizations alone; however, with the aid and support of each individual we can make East Beach a heaven. Give your desire for beauty recognition, make our homes beautiful, and make living a pleasure.

DRIVE ON RABBITS AS TRACTORS RUN

Dozens of people, white and colored, boys and girls and men and women, gathered on East Beach after noon in a rabbit drive on C. A. Shiver's land in section 17, along the road between the ice plant and the Pahokee business district, and the sight was viewed with interest by passing motorists.

Duncan Padgett, who is to farm the land with Mr. Shiver, was having Quincy Harper run down the woods with a tractor and as the machine rolled the field the rabbits were routed and were attacked by negroes with clubs, while spectators joining in the sport. The rabbits are released as soon as the colored people.

Each circuit of the tractor drove the rabbits toward the center and as the space was steadily made smaller the rabbits were brought into a group. This was a means of getting rid of field rats, also, and dogs as well as clubs were used.

Mr. Padgett says that on the previous Tuesday there was an altogether bigger affair on section 10 when more than a hundred colored people took part.

The rabbits are pests, for they do injury to vegetable crops. Rats are even worse than rabbits and last year, Mr. Shiver said, they destroyed many beans on the outer edge.

A negro man said a real jack-rabbit was killed on section 19; it was twice as large as the ordinary rabbit and had large ears like the jackrabbits on the western prairies but Mr. Padgett guesses it was a domesticated rabbit that had gotten loose from its pen.

CANAL POINT

Mr. and Mrs. O. C. Roland returned Saturday afternoon from a vacation visit to Alamo, Ga., their old home.

Mrs. Long of Macon, Ga., is visiting her sister, Mrs. T. W. Adams, at Mayaca station.

Fred Hightower was in Canal Point Sunday. He brought over the colored Cleverton base ball team that played the Canal Point sugar company team at Atlatar.

C. M. Jones returned the latter part of last week from Edenton, Ga., where he spent a summer vacation, and on Monday morning went back to work for the sugar company on his old job.

G. E. Sims, accountant for the sugar company, got the news by telephone Wednesday evening that a son had been born to his wife at Richmond, Ga., and that mother and babe were O. K.

Lacoochee, Fla., being too far away as a point from which to get school books, Miller's drug store in Canal Point has put in a stock. Not all of the books came that were ordered, but shipments continue to be received.

John Formay, chemist for the sugar company, returned Tuesday night from a two-weeks' visit at his old home in Louisiana. He says the diversity of vegetables that is being planted shows that farmers are planning to provide their own foodstuffs. In Mississippi the practice of exchanging commodities is getting to be general, he says, this being due to lack of money as a circulating medium.

Mrs. Edward A. Forbes and daughter Fritzle were out from West Palm Beach Saturday. Her sister, Mrs. J. W. Barrett, went into town with her, returning later with Mr. Barrett, who had preceded them.

E. B. Shearer and family returned Monday from a summer stay at Roanoke, Va.

Mr. and Mrs. Harold A. Littman returned Monday from a summer vacation spent in the north. They were as far north as Springfield, Mass., where they visited his sister, touching sixteen states in the course of their travels. A stop was made in Washington to visit the Masonic Home, Robert H. Govan and wife and two sons and daughter joined them at Summerton, S. C., and came down with them to Belle Glade. One of the Govan boys has entered Pahokee high school.

CITIZENS CUT PATH TO SCHOOL HOUSE

To save children from the carelessness of motorists, a path has been cut through the weeds on the east side of the front road leading to the school house. Rose Winnie and his boys Bill and Smiddy and Mr. and Mrs. B. Bruce and W. Hinkley were on the job, and Delmar Hooks furnished two men and H. J. Toth and H. L. Speer made contributions of labor also. Mrs. Winnie is a former president of the Parent-Teachers' association.

The school is expected to furnish rock for the walk, it is said.

This part of town, in Canal Point proper, where there is a good deal of traffic, because of the street extends to the Florida East Coast railroad station, and as the town is not incorporated, the town is very necessary.

It is observed, however, that many of the motorists are careless in the middle of the road, ignoring the by-path that has been made for the benefit of the children.

John Formay, chemist for the sugar company, returned Tuesday night from a two-weeks' visit at his old home in Louisiana. He says the diversity of vegetables that is being planted shows that farmers are planning to provide their own foodstuffs. In Mississippi the practice of exchanging commodities is getting to be general, he says, this being due to lack of money as a circulating medium.

BIRTHDAY PARTY TO 'STORM BABY'

George Tucker, Jr., the Canal Point "storm baby" of the 1928 hurricane, celebrated his fifth year Friday, Sept. 18, at the home of his parents, Mr. and Mrs. G. H. (Duke) Tucker. The house was decorated with cut flowers. Games were played and a good time was had by the following guests:

Messrs. Babs and Ann O'Connell, Frances Joyce, Evelyn Weather, Barbara Jean Horne, Dorothy Tucker, Floy Watson, Jr., Ray Hawk, Joe Dunn Boynton, G. H. Weathering, Richard Watkins, Russell Horne, Mrs. Ray Hawk and the hostess, Mrs. G. H. Tucker. Refreshments of cake, ice cream and punch was served. Many gifts were received by the little honoree.

LITTLE DECLINE IN CELOTEX STOCK

Declines in values that have affected all stocks have taken place in the fortunes of the Celotex Company, parent company of the Southern Sugar Company, but the decline is not as great as in some other stocks, the Celotex Company seemingly having outlasted the depression.

On July 19 a sale of 100 shares of Celotex common was made on the New York Stock Exchange at 6 1/2 and 200 certificates sold at 5 1/2 and 900 preferred sold at 17. Two weeks before the quotation on the New York stock exchange was 18 3/4 and 200 certificates sold at 18 3/4.

The price of the stock has not changed in the common or the certificates. Three hundred certificates sold August 20 at 5 1/2.

The steadiness of Celotex is indicated in the sales of 15,000 preferred in the week ending September 19 at a range of 18 1/2 to 18 3/4 and of common at from 4 3/4 to 5 1/2 and the certificates at 4 to 4 1/2.

Near the first of this week when developments in London affected the stock at over the world, the Celotex quotations were: 400 Celotex sold at 4 1/2, 500 certificates sold at 3 1/2 and 500 certificates sold at 17.

At the time of the week when the developments in London affected the stock at over the world, the Celotex quotations were: 400 Celotex sold at 4 1/2, 500 certificates sold at 3 1/2 and 500 certificates sold at 17.

At the time of the week when the developments in London affected the stock at over the world, the Celotex quotations were: 400 Celotex sold at 4 1/2, 500 certificates sold at 3 1/2 and 500 certificates sold at 17.

COMMUNITY GOSSIP

George Kingsley, superintendent of the Canal Point water works, said that the State Board of Health analysis showed Lake Okechobee raw water to be high in harmful bacteria and of bad color and he was straightway told by a resident that the reason was plain—east coast water and flood waters running in the canal wrong end and had contaminated the lake.

Joe Churry, "M. Belle Glade" says his folks always notice a change in the condition of lake water when Hillsboro canal is discharging into the lake.

Grady Boynton looked up his records and he says he loaded a car on October 9 last year and that the paper was wrong in saying that Louis Creech's car was October 13 from Belle Glade was the first car.

Mice and rats are again bad in Canal Point. An explanation for it is that clearing land and plowing has run the rodents out of the fields and they are taking refuge in dwellings and stores.

Hoover ought to abolish slavery, what it is going to do to the part of Agriculture wants to be farmers it will find some kind of a bug or microbe that will make cotton and wheat perfect business if cotton and wheat can't be carried over from one season to another. Nobody in the Everglades will be interested in Great Britain's abandonment of the gold standard unless it can be shown it has something to do with the price of beans.

It should be easy to clear West Palm Beach canal of the water hyacinths put by having a man in a row boat break the jam and guide the hyacinths down the canal, if the lock chamber gates are opened wide at Dixie highway crossing, a Canal Point man concluded from a view of the situation Monday. While the current state of the hyacinths would move under that power and pass to the ocean.

Strong hyacinth jam still had, however, and the administrators of the drainage district may be more concerned about the feelings of the Palm Beach residents than they are of the Everglades.

NIELSEN TO SPEAK. Air R. Nielsen of West Palm Beach is to be the speaker at the meeting of the Pahokee Rotary club at noon today.

Mr. and Mrs. C. W. Oakes of Fort Lauderdale paused in Canal Point Thursday on their way home from a vacation trip in Indiana and Ohio. He is a landowner in the Oklawaha territory.

Mr. and Mrs. Lloyd Aspey and daughter Dorothy returned last week to their home on Krasner Island from a stay of several weeks at their old home in Pennsylvania. They were accompanied by Mr. Clarence Aspey, son of Lloyd's brother. Clarence is a printer and is working in Miami.

John Reeson stayed in the island and looked after the place during the absence of the Aspeys.

NO DANGER FROM FLATWOODS WATER

There is not much water in the ponds in the edge-of-the-glades country north of West Palm Beach canal and east of Canal Point, according to persons who have investigated the matter. There is no danger of the lands being flooded by water from the flatwoods.

There is fully a thousand acres of good land between Canal Point and Mayaca that is farmed when the lake is low and no flood water is stored east of Sand Cut siding and Tyneville.

The Carmichael and the Twyman.

NEWS FROM THE BIG LAKE

BELLE GLADE

BELLE GLADE, Sept. 23.—Lodi Greer and A. W. Shuler, formerly of Brown Farms, have the mechanics now on duty at the Belle Glade Service Garage.

Mr. and Mrs. R. K. Harris and children motored to Sanford Sunday, where they spent the day with relatives. Mrs. Harris' mother, Mrs. A. P. Woodburn, returned with them for an indefinite visit.

Walter Schelcher surprised his friends here by bringing back his bride, from High Point, N. C. A crowd gathered Monday evening to give them the customary welcome and the grown and a number of other men were given a ducking in the canal. Later they went to the Schelcher home and had a social time and refreshments.

Among the local men who are serving on the jury this week are T. O. Darden, Lawrence Will and E. A. Roberts.

Mrs. Ruth Bryan Owen made a short call at the home of the mayor, G. E. Tedder, Tuesday.

Lee Kewels left Tuesday to get his wife and son Billy, who have been visiting Mrs. Rawlin's parents, Mr. and Mrs. Reeves, in Gainesville.

Mrs. E. M. McLennore and Joyce and Buddy and Mrs. H. L. Lashley motored to Miami Sunday to see Mr. McLennore, who has been quite ill in the past week. They found him slightly improved.

Mr. and Mrs. R. Gordin and children, including a daughter and two sons, have come from Simpson, S. C., to spend the winter here.

Mr. J. P. McEwen, Bertel and Bidwell, spent Sunday in Moore Haven with the Rev. and Mrs. W. P. Wheeler.

Mrs. H. A. Stollenberg and

Heien, Mrs. J. F. Sheldon and Joanne, and Mrs. George Rawlin and Odele, made a business trip to West Palm Beach Monday.

Among those from Belle Glade who went to Pahokee Monday night to hear Mrs. Ruth Bryan Owen were: Clara Belle Morris, Mrs. B. B. Bedole, Mr. and Mrs. R. W. Kidder, Mr. and Mrs. J. R. Neller, Mr. and Mrs. G. E. Tedder, Mr. and Mrs. George Parker, Ivan Smith and Rev. and Mrs. J. R. Hoch.

Mr. and Mrs. C. H. Allan and Mr. and Mrs. William Langley of Fort Lauderdale are expected about the first of October. They will occupy apartments in the Douglas building.

Mr. and Mrs. H. A. Stollenberg and daughter Helen, were dinner guests of Mr. and Mrs. George Rawlin Monday evening.

John Pudgett of Kennaville is visiting his son E. L. Pudgett and family.

The latest word received from Mrs. J. P. McEwen states that she is much improved. She is a patient in Black Mountain, N. C.

Marcelyn Crech, daughter of Mr. and Mrs. H. V. Crech, is leaving this week to attend school in Fort Pierce. She will be with her mother, Mrs. Crech, until the Crech left last week to continue his work at the Florida Military Academy.

The Ralph Mann family has moved back to Brown Farms, where they were formerly located. Francis Harris went to West Palm Beach Saturday to attend a dental work.

Mr. and Mrs. W. H. Bland of Fort Lauderdale were calling on friends here last week.

The Garden Club market is now open for the season. Mrs. C. E. Reid is assisting Mrs. C. E. Reid.

Mr. and Mrs. George Scarborough spent the week end in Sebring.

Robert Bryan of Fort Lauderdale was here Tuesday looking after his farming interests on one of the islands.

The A. A. Henry family will move to Lake Harbor this week, where Mr. Henry is employed. J. Morris, A. A. Henry has been built for their use.

Mr. and Mrs. W. E. Carruth and daughter Mrs. Thelma Tenn, made a business trip to West Palm Beach Tuesday.

Benjamin Heston has returned to his duties at the Experiment Station after having been gone a week on vacation.

R. E. Fish, who has his car outfitted with a shoe repair outfit, is stopping at the tourist camp.

Mr. and Mrs. A. Dianne, both of whom have returned from their vacation trip through Florida, have visited St. Augustine and Gainesville as well as Tallahassee, where Miss Lois remained to continue her work at the Florida State College for Women.

Miss Cio Griffin of Thomaville, Ark., recently visited her aunt, Mrs. C. A. Thompson. She is teaching in the Pahokee school.

A quarterly conference and trustees meeting were held at the Community church, parsonage Tuesday night. Members present were: E. E. Deikel, S. D. Spivak, A. D. Dade, R. W. Kidder, Mrs. George Parker and Rev. and Mrs. J. R. Hoch.

Mr. and Mrs. A. K. Kirchman are the parents of a daughter who arrived Monday of last week.

Mr. and Mrs. S. E. Campbell left Monday morning for Fort Lauderdale, where they will spend a couple of days attending to some business matters.

T. Deekman of Jacksonville is visiting his son and family at Lake Harbor.

Mrs. J. S. Scoggins of Lake Harbor is recovering slowly from an automobile accident, near Lake Worth recently when the car in which she was riding was overturned and turned over on the pavement and turned over on the car was slightly damaged but none of the family hurt to any extent except Mrs. Scoggins. Mr. and Mrs. J. C. Campbell and daughter Shirley of Fort Lauderdale have moved up to South Bay and will farm this winter with their parents, Mr. and Mrs. S. E. Campbell.

Mrs. Beale O'Leary and twin children, Cissy May and Robert of Jacksonville, Va., have arrived in South Bay and will spend the winter with her sister, Mrs. Ivan Cole. The young people will enter school here.

Mrs. Brown, mother of Mrs. G. L. Royal, who is confined to bed, Genevieve and Gwendolyn, returned last week from spending their vacation in Sebring.

Mr. and Mrs. R. F. Morris made a combined business and pleasure trip to West Palm Beach on Sunday.

The South Bay teachers motored to Palm Beach Monday morning to attend the meeting of the Upper Everglades teachers called by Superintendent Principal E. E. Bishop.

W. H. Rawlin fixed the school pump during the week he was away for the opening of school on Monday.

J. R. Morris, grandfather of R. F. Morris of Ocala, has returned to his home in Alamo, Ga.

Rev. and Mrs. Charles Winter of Miami will be in South Bay on Sunday, September 27th, and conduct both morning and evening worship at the Baptist church.

South Bay members of Boy Scout Troop No. 25 failed to secure transportation to the Legion hall on Wednesday night due to car trouble. They promptly arranged for the registration of pupils and assignment to classes. F. B. Nance is principal and instructor in the junior high school. He is assisted by Miss Vivian Shepherd of Boynton Beach. E. E. Clemens of West Palm Beach has the fifth and sixth grades. Mrs. Irene Overcast of South Bay will teach the third and fourth grades, and Miss Wilma Vahry of Vero Beach will have the two primary grades.

Mr. and Mrs. F. B. Nance spent their vacation in Asheville, North Carolina. Miss Shepherd is one of this year's graduates at Tallahassee. Mrs. Clemens spent the summer session at Gainesville taking some special work, and Miss Vahry went in Asheville, N. C., during the summer session.

OKEELANTA

OKEELANTA, Sept. 26.—J. T. Hillhouse, who had planned to return to his home in Okeelanta, Fla., for the first of last week for Clewiston.

The county road between Okeelanta and South Bay is being somewhat improved by a grader. For the benefit and safety of our school children, Miss Ruth Annina, who gathers up the knowledge of the young, along the four miles, surely appreciates any improvement of the road.

Chas. Cowgill and John Norquist and wife spent a day recently in the Mothersbaugh house, returning the following morning to their employment in Miami.

J. J. Booth and brother occupied the bridge house for a short time during the past week. They left in search of some remunerative job along the lake.

Once in a while we are reminded that once in the "long ago" we had a post office by spring S. R. Copper, former post master, on our street. Sunday last was such a day.

E. J. Cooper and John Anglin drove to Pahokee one day of last week on business.

The rainfall during the past fortnight in this vicinity has been below normal. There has been little or no rain here on account of hurricane warnings.

If a right beginning leads to a good ending, John Anglin has the promise of a successful school term.

"BRIG" YOUNG ESTATE.

Letters of administration have been issued to L. T. Crech, Jr., of the estate of W. B. Young, who died intestate on February 29, 1928.

The deceased was survived by his mother, Mrs. Ivey L. Young, administrator. A brother-in-law of the deceased who was not married, consisting only of certain lands in the county according to the petition.—Palm Beach Post.

FULL STAFF OPENS SOUTH BAY SCHOOL.

SOUTH BAY, Sept. 22.—Schools opened Monday morning in South Bay promptly on schedule with the registration of pupils and assignment to classes. F. B. Nance is principal and instructor in the junior high school. He is assisted by Miss Vivian Shepherd of Boynton Beach. E. E. Clemens of West Palm Beach has the fifth and sixth grades. Mrs. Irene Overcast of South Bay will teach the third and fourth grades, and Miss Wilma Vahry of Vero Beach will have the two primary grades.

Mr. and Mrs. F. B. Nance spent their vacation in Asheville, North Carolina. Miss Shepherd is one of this year's graduates at Tallahassee. Mrs. Clemens spent the summer session at Gainesville taking some special work, and Miss Vahry went in Asheville, N. C., during the summer session.

WILL ROGERS PREFERS LEGISLATION; PREFERS "M" MAKING.

Will Rogers, famous comedian and humorist, has no political ambitions in spite of the fact that he probably is the most popular man in America.

Several times, humorous campaigner—more in earnest than fun—have been made by Rogers for President.

"Would you accept high political office if it were thrust upon you?" he was asked.

"No, I don't know anything about politics," he answered. "These fellows don't know me. They're mighty smart at it. They can handle it. I don't know what it's all about, even though I do like to kid them now and then."

Rogers had a lot of fun out of making his last Fox production, "Mark Twain's 'A Connecticut Yankee' which comes Sunday to the Triangle Theatre.

The comedian-humorist was able to add many lines to Mark Twain's original story due to the great mechanical developments that have occurred during the 40 years since Twain wrote his masterpiece.

Throughout the picture he takes as many liberties with King Arthur and his Knights of the Round Table as he has in real life with the potatoes and great of the earth, and the results on the screen are screamingly funny.

Just as "A Connecticut Yankee" is regarded as the greatest comedy since Twain ever wrote, the Fox production by Rogers undoubtedly will rank as his masterpiece on the talking screen.

A splendid cast has been chosen by director David Butler. William Farnum plays the part of "King Arthur." Maureen O'Sullivan is his daughter, "Alisande." Frank Albertson is "Clarence" her fortunate wooer, and Myrna Loy is "Morgan Le Fay." Other fine players appear, also.

SOUTH BAY TO TENDER RECEPTION TO ALL TEACHERS IN SCHOOLS OF UPPER GLADES

SOUTH BAY, Sept. 20.—The executive council of the Parent-Teachers Association here called this, the initial social gathering of the present year, a success from every standpoint.

Other plans for the coming year were discussed and vacancies caused by the resignation of officers were filled. Mrs. J. W. Haskley having resigned as president, Mrs. G. J. Barstow was appointed to fill the unexpired term; and Miss Wilma Vahry was selected as secretary to fill the place made vacant by the resignation of Mrs. O. C. Thompson; and Mrs. Daane was selected as chairman of the health committee. Members present included Mrs. W. H. Rawlin, Mrs. M. D. Hardy, Mrs. H. B. Davis, Mrs. G. J. Barstow and Mrs. J. W. Haskley.

DIAGLINE OPERATOR JOB UNDER CIVIL SERVICE.

Drainage operators for the government work on Lake Okechobee are to be employed under civil service rules, it appears from an announcement made at Fort Myers Tuesday afternoon at the school of "drainage engineer" but as the pay is \$6 a day the work probably is an operator. An announcement of the vacancy is in a bulletin sent out by the Civil Service Commission. Preference is to be given to a person living in the district.

TOO LATE TO SPRAY TRUCK FOR FUNGUS WHEN TROUBLE SEEN

GAINEVILLE.—After fungus have caused vegetable plants to turn yellow, wilt, and fall to the ground it is too late to save the plant by using fungicides, says Dr. F. W. Fisher, associate plant pathologist at the Florida Experiment Station. Fungicides are applied to plants in order to prevent infection by the various parasitic fungi, he stressed, since trouble is recognized only when the parasite is firmly established and it is too late.

When the sprays and dusts are applied to plants as soon as they emerge through the soil whether in the seed-bed or in the field, this first application should be followed by other applications as often as may be required to keep all new growth of the plants covered with the fungicide and this protected from infection by the numerous parasitic fungi.

Bordeaux mixture, 2-4-50 formula, has been used very satisfactorily in the seedbeds and on young plants, the strength to be increased to 4-4-50 as the plants develop. The spray can be applied to the plants any time, but preferably when they are dry. In contrast, the dusts such as copper lime should be applied when the plants are wet. Dusts such as 60-20-20 or 75-25 can be applied to the plants in any stage of development with very little danger. Fall crops such as peppers, eggplants, cucumbers, tomatoes, celery and potatoes should be sprayed or dusted regularly for the best results.

The census lists 57 people in Okechobee as making their living by farming, while Pahokee has 1,450 who make their living that way, and the Okechobee News says this is the reason Pahokee is the most prosperous town in the Lake Okechobee region. It can be added that you have to have good land and to farm to make a living.

T. LANE MOORE IN BANKRUPTCY COURT

Having filed a petition in bankruptcy and surrendered his property to the court, T. Lane Moore has made application for final discharge. Notices have been received by creditors that unless there is objection the order for final discharge will be entered by the court at Miami.

Mr. Moore was expected to reengage in business this fall at Belle Glade and enlarge a pre-existing plant but it is reported that he may return north and take charge of a drug store or other business the property of a relative.

T. Lane was well known on East Beach and in the South Bay territory and has many friends who will welcome him if he comes back to the lake region.

TIE DYING DONE AT CLUB MEETING

BELLE GLADE, Sept. 23.—The Home Demonstration Club held its regular monthly meeting Thursday afternoon at the school of Mrs. Lawrence Bessant. The following officers were elected to serve the coming year: Mrs. G. E. Tedder, president; Miss Alice Reed, vice president; Mrs. George Parker, secretary.

Mrs. Edith Y. Bannus demonstrated tie-dyeing and tasty refreshments were served by the hostesses. Those attending were: Mrs. J. F. Sheldon, Mrs. T. Lashley, Mrs. H. A. Stollenberg, Mrs. George Parker, Mrs. J. H. Chambliss, Mrs. J. F. Browne, Mrs. Bryn-Lewis, Mrs. J. R. Neller, Mrs. C. A. Thompson, Mrs. Max Morris, Miss Cio Griffin, Mrs. J. R. Hoch, Mrs. E. E. Deikel, Mrs. W. Kidder, Mrs. Stephens, Mrs. H. H. Wedgeworth, Mrs. George Rawlin, Mrs. W. H. Hooker and Mrs. Mary Keller.

BEANS GROWING IN SOUTH BAY'S AREA

SOUTH BAY, Sept. 22.—Preparing for the coming year, beans are being planted in this section at this time. Not any great acreage has been planted in the field. This first application should be followed by other applications as often as may be required to keep all new growth of the plants covered with the fungicide and this protected from infection by the numerous parasitic fungi.

Bordeaux mixture, 2-4-50 formula, has been used very satisfactorily in the seedbeds and on young plants, the strength to be increased to 4-4-50 as the plants develop. The spray can be applied to the plants any time, but preferably when they are dry. In contrast, the dusts such as copper lime should be applied when the plants are wet. Dusts such as 60-20-20 or 75-25 can be applied to the plants in any stage of development with very little danger. Fall crops such as peppers, eggplants, cucumbers, tomatoes, celery and potatoes should be sprayed or dusted regularly for the best results.

HIGHEST BUZZARD FLICK.

The biggest flock of buzzards the writer ever saw in 15 years of observation in the lake country was seen Saturday on Little Krammer. As nearly as the writer and his chauffeur could make out, there were between 40 and 50 of the buzzards.

"Why My Next Car will be A FORD"

When you buy a Ford there are two things you never have to worry about. One is reliability. The other is long life.

Here's an interesting letter from a Ford owner in North Carolina:

"My Ford was purchased May 8, 1928, and has been run 121,567 miles. It has never stopped on the road for repairs of any kind whatsoever except punctures."

"The brakes were relined at 101,000 miles. My gas mileage averaged 21 miles to the gallon, and on tires, 19,000 miles per tire. I travel over all kinds of road conditions—mountains and flat."

"I consider this a wonderful record and I assure you my next car will also be a Ford."

This is just one of many tributes to the reliability and long life of the Ford. A Ford owner in Iowa tells of driving his Ford 73,000 miles in a single year. Another writes of 120,000 miles of good service.

Think ahead when you are considering the purchase of an automobile and consider what it will be like after thousands of miles of driving. Will you still be satisfied? Will you still say "it's a great car?"

If it's a Ford, you know everything will be O.K. It will always take you there and back in good style, just as it has always done. And you will have saved many important, worth-while dollars in cost of operation and up-keep and low yearly depreciation.
